2. Explain any three factors that affect the climate of a place.
3. Why do people living in different regions of India have different lifestyles?
4. How can weather forecasts be useful in daily life?

## **Section D**

### **Long Answer Questions (Any 2) (2x5=10)**

1. Describe the Northern Plains and explain their importance.
2. Explain five ways in which the Himalayas influence life in India.
3. India is called a land of geographical diversity. Justify the statement.

## **Section E**

### **Case Study Based Questions (2x1=2)**

#### **Case Study: Planning a School Picnic**

**Read the case study carefully and answer the following questions.**

Students of Grade 7 planned a picnic to a hill station. Before finalising the trip, the teachers checked the weather forecast. The forecast predicted heavy rain and strong winds. The picnic was postponed for a week.

1. Why did the teachers check the weather forecast?
2. Which two weather elements mentioned in the passage affected the decision?

## **Section F**

### **Map Based Question (1x1=1)**

1. On an outline map of India, label:  
(i) Eastern Ghats      (ii) Thar Desert
